

## **4-Day Certified Course in Introduction to Health Technology Assessment (6 - 9 March 2013)**

Von *iphcommunication*

Erstellt am 10 Jan 2013 - 18:57

This introductory course covers the key elements and methods of HTA and DS and combines lectures, discussions, case study group work, and hands-on computer lab sessions. Case examples of the course include technologies from different areas such as pharmaceuticals, devices, public health & prevention strategies, management programs and health information systems.

Who is the course aimed at?

The course is created for members of:

- \* Healthcare & health policy organizations, national HTA Agencies
- \* Pharmaceutical & medical device industry
- \* Academia and research institutions
- \* Health insurances/sickness funds
- \* Consultancy organizations

By the end of the course, participants will be familiar with:

- \* HTA key principles and practice
- \* Methods in biostatistics, clinical epidemiology and EbM
- \* Patient-relevant outcome measures
- \* Critical study appraisal
- \* Systematic reviews & meta-analysis
- \* Economic evaluation and pricing
- \* Decision-analytic modeling (+ computer tutorial)
- \* Context-specific application of HTA
- \* HTA from different perspectives (agency, industry, etc.)

Date of the Course

6 - 9 March, 2013
